

Legal-Ease

Automated Conferencing Service

Introducing *Legal-Ease*, the easiest and most efficient way to conference with business associates, clients, and others. Legal-Ease reservationless conferencing service, specifically created for the legal industry, allows you to bill back your conference calls via entering a client code.

APPLICATIONS:

TRACK AND ALLOCATE COSTS BY:

- » Department
- » Client or matter
- » Attorney
- » On line reporting interface
- » Record important meeting and depositions
- » Increase billable time and productivity

FEATURES:

- » Local/International Dial-In
- » Client Bill Back Feature
- » Record your conference on the fly
- » Conference instantly – no reservations
- » Up to 300 lines available as capacity permits
- » No time limits
- » Complete control of your call via simple telephone keypad commands
- » Record your conference for the future playback over the phone

BENEFITS:

CLIENT BILL BACK FEATURE

- » Enter a **client matter code** just prior to connecting to your call and your invoices will reflect the code for bill back purposes!

CONFERENCE INSTANTLY

- » **Legal-Ease** is an automated, reservationless, conferencing service that offers a reliable and simple solution for your everyday conference calls. No longer must a conference be scheduled in advance or require operator assistance. We make it easy for you by providing one toll free number for you to use for all your conference calls. With Legal-Ease, you can conference up to 300 participants and begin a conference anytime, any place on the fly.

COMPLETE CONTROL AND SECURITY AT YOUR FINGERTIPS

- » **Legal-Ease** is an easy-to-use service that provides a high degree of meeting control and security. As the conference host, you are provided a unique pin code that allows you to start the conference. If your participants join first, they will hear music until you join the conference.
