

EventSource Earnings Calls

Engage the **EventSource** solution to reduce stress and ease those pressure filled earnings calls. Your executives can focus on presenting and provide your stakeholders with the best experience possible. Our expert team of event coordinators, operators, and web technicians are there to address any questions and give the support necessary starting with booking your event all the way through post event analytics and archiving.

EventSource Package:

OPERATOR ASSISTED AUDIO – ensure your call is handled with the highest level of professionalism by experts.

WEB SOLUTIONS – Share your results with your viewers to better communicate data and company initiatives.

EVENT MANAGERS – Team of production experts to be there with you every step of the way.

EVENT PACKAGE – Registration capabilities, dry-runs, recording, archiving, and much more!

“Our experience with 1Source has been extremely positive. The team knows exactly what it takes to provide excellent support for high profile calls, such as our quarterly earnings call, and their ability to customize offerings ensures that each call achieves its intended objective. However, what we have been most thankful for during our relationship is the level of customer service and professionalism that every member of the team delivers, starting at the top with Kathleen Thompson. The members of the team are accessible, accountable and are willing to do whatever it takes to guarantee that all of our calls go smoothly.”

- John Groneman; Vice President of Investor Relations & Assistant Treasurer – Janus Capital
